

**Underground
Technologies**
The Leader In Plastic Manhole Technology

Pro 40 Advantages

- **No degradation from sulfides – No rehabilitation requirements**
- **Airtight integrity throughout system**
- **No maintenance**
- **Cost effective**
- **H-20 rated for heavy traffic**
- **Exceeds performance standards of concrete and lined-concrete manholes**
- **Gasket sealed**
- **No infiltration**
- **No ex-filtration**
- **Inert, non-toxic construction**
- **Life expectancy – comparable to SDR 35 and C-900**
- **No coatings necessary**
- **Meets ASTM D 3212, D 1784, F 477**
- **Easy installation – fewer steps; less opportunity for human error**
- **Years of established performance**
- **Smooth, easy-flow surfaces**
